SRIGAJESH UI/UX Designer

Portfolio | LinkedIn | gajeshacharya9@gmail.com | +91 8970453603

UI/UX Designer with 4.5+ years of experience designing enterprise and consumer digital products for web and mobile platforms. Skilled in simplifying complex workflows, building scalable design systems, and creating user-centered experiences for data-heavy applications.

EXPERIENCE

Webtree Software Solutions

UX/UI Designer | FEB 2024 – PRESENT

- Designed responsive web and mobile experiences for enterprise products, improving workflow usability and user efficiency.
- Translated complex requirements into wire-frames, user flows, and high-fidelity prototypes using Figma.
- Built reusable design components that improved design consistency and reduced hand-off time by 30%."
- Partnered with product managers and developers to deliver scalable and implementation-ready designs.
- Improved design-development workflow through better documentation and hand-off practices.

QlicLabs Technologies Pvt Ltd

UX/UI Designer | SEPT 2021 - DEC 2023

- Designed enterprise accounting software interfaces for web and mobile platforms.
- Simplified complex workflows for dashboards, reports, and form-heavy systems.
- Created wireframes and interactive prototypes to validate workflows before development.
- Worked with product and engineering teams to balance user needs with technical constraints.
- Enhanced usability and clarity across core product features.

NSEIT Pvt Ltd

Network Administrator | 2020 - 2021

- Gained strong understanding of system architecture and technical workflows
- Collaborated with technical teams, strengthening problem-solving and analytical thinking
- Applied technical knowledge to improve communication between design and development teams

CORE STRENGTHS

Enterprise UX • Design Systems • Workflow Simplification • Data-heavy Applications • Cross-functional Collaboration

EDUCATION

Master of Computer Application (MCA)

Mangalore University

Bachelor of Computer Application (BCA)

Mangalore University

CERTIFICATIONS

Google UX Design Professional Certificate

- UX research and user-centered design process.
- Usability testing and case-study-based learning.

SKILLS

Design Tools

Figma • Mural • Sketch • Adobe Photoshop • Illustrator • Zeplin

UX Skills

User Research • Wire-framing • Prototyping • Design Systems • Information Architecture • Usability Testing

AI & No-Code Tools

ChatGPT • Claude • Gemini • Midjourney • Figma AI • Codex • Magnific AI • Framer • Lovable

FEATURED PROJECTS | Highlights

TRIBAL — Order Management System

Enterprise Workflow Platform | B2B

Designed a complete order management ecosystem for a clothing manufacturing company, streamlining workflows from order intake to delivery across multiple operational departments.

Contributions

- Designed dashboards and workflows for design, cutting, stitching, ironing, transport, and accounting teams.
- Simplified production tracking and operational visibility across departments.
- Created scalable workflow structures for enterprise operations.
- Collaborated with stakeholders to optimize usability and task efficiency.

UX Process

Operational Workflow Analysis • User Journey Mapping • Information Architecture • Dashboard Design • Wire-framing • Prototyping • Cross-functional Collaboration • Enterprise UX Design.

Outcome

- Improved workflow coordination across operational teams.
- Reduced process complexity through centralized management experience.

Cortado — Mobile Ordering Application

Food Ordering App | Bahrain

Designed a unified café ordering experience supporting delivery, car pickup, dine-in, and takeaway within a single mobile application.

Contributions

- Designed seamless multi-mode ordering workflows with consistent user experience.
- Simplified browsing, ordering, and checkout flows for faster interactions.
- Reduced friction in customer ordering journeys through intuitive navigation.
- Collaborated on responsive and scalable mobile UI systems.

UX Process

User Flow Mapping • Ordering Journey Design • Wire-framing • Interaction Design • Prototyping • Mobile UX • Checkout Optimization • Usability Validation.

Outcome

- Achieved **5000+ downloads** within the first day of launch.
- Successfully improved ordering convenience and customer engagement.

Trrings — Social Media Platform

Social Networking Mobile App

Designed a social media platform focused on community interaction, live engagement, and audio-based social experiences.

Contributions

- Designed user flows for live streaming, audio chat, podcasts, stories, and social interactions.
- Created smart search experiences using profile-image-based discovery.

- Designed engagement-focused interfaces for content sharing and social networking.
- Developed scalable mobile interaction patterns for social engagement features.

UX Process

User Research • Social Experience Design • User Journey Mapping • Wire-framing • Prototyping • Interaction Design • Live Engagement UX • Mobile UX

NAD Group Rewards Application

Employee & Client Rewards Platform

Designed a rewards platform enabling employees and clients to access offers, vouchers, and loyalty-based benefits across multiple partner brands.

Contributions

- Designed reward redemption and voucher browsing experiences
- Simplified offer discovery and engagement workflows
- Created mobile-first experiences for loyalty and rewards management
- Improved usability for employee and customer engagement flows

UX Process

User Research • User Flows • Wire-framing • Information Architecture • Prototyping • Mobile UX • Reward Journey Mapping • Usability Testing

Outcome

- Streamlined rewards and voucher management for employees and clients.
- Improved offer discovery and redemption experience through intuitive workflows.
- Increased engagement with partner brand offers using a mobile-first platform.
- Delivered a scalable rewards experience supporting multiple partner categories.

Interests

UX Strategy, Design Systems, Product Design, Accessibility, Prototyping, Interaction Design, AI-driven Experiences

Thank you
